## *The Thinking Person's DVD Club*

We invite you to join us on one of the greatest human adventures of all time — the exploration of consciousness itself in all its myriad forms — through a monthly DVD subscription. A mind-expanding, thought provoking, controversial series of programs from the visionary thinkers of our time.

*Visionary DVD Club subscription costs \$20 per month.  
Receive 3 programs on DVD every month  
(up to four hours), yours to keep and share.*

*"As a person who has been working in the field of consciousness for 30 years, I regard these programs as a landmark. This is the first time that the new scientific vision of consciousness presented by serious people researching in the field has been presented to a public audience."*

Jeffrey Mishlove, PhD

*"I highly recommend it to everyone who is drawn to exploring the most exciting aspects of human consciousness. They will find it is not so strange as they think and even more beneficial than they imagine."*

Gregory Wheeler, PhD

*"I think of my experience as mind-shattering. At the end of one presentation, I found myself sitting and sobbing...from the immensity of what I was taking in."* Roberta Cantow

*"I'm starting a weekly group meeting to share these videos with my friends, so we can discuss intelligently our perspectives on consciousness, religion, spirituality, and our humanity."* Lyn Startzman
